

Below are a few suggestions to help you get the most enjoyment from your friend, BORIS.

SELECTING YOUR LEVEL

The more time you give BORIS to think, the smarter he is. Therefore, you can easily select the level of play by programming the timer. Some suggested levels are as follows:

- Level A - Do not set timer. BORIS will automatically respond at his minimum response time. At this level, BORIS leaves himself open for your attack, giving you many opportunities to defeat him. A good beginner's level.
- Level B - 30 seconds. Defeating BORIS at this level indicates you have a good understanding of basic strategy.
- Level C - 2 minutes. Good competition for an average player.
- Level D - 5 minutes. Challenging competition for an accomplished player.
- Level E - 30 minutes plus. A game that will keep a master's attention.
